

Consultant

[Apply Now](#)

Company: Jameson Legal

Location: Netherlands

Category: office-and-administrative-support

An exciting opportunity has become available in the Netherlands to join a leading provider of legal software solutions. They specialise in Document Management software, along with other Legal Technology offerings.

Due to their rapid growth, they are looking for a consultant with the following experience:
Strong working experience of implementing software solutions.

The ability to own implementation projects through their entire lifecycle.

Working knowledge of API architecture and usage

Working knowledge of any of the following scripting languages: PowerShell, VBScript, JavaScript, or Python

Main responsibilities in this role will include:

Designing, building, and implementing document management solutions onto clients' Microsoft platform, including SharePoint (Online), Teams, and Outlook

Acting as a Subject Matter Expert to customers, colleagues, and partners

Delivering customer on-boarding sessions and technical architecture presentations.

Providing end-user and/or key-user training sessions.

Running and owning proof of concept environments.

Working with product teams to provide customer requirements and feedback to improve the

solution and product stack.

To be considered for this role, it is essential that you have a consultative approach and a strong technical background in IT. This is an exciting role that offers a competitive salary, and plenty of opportunity to progress.
