

Critical Environment Technician Microsoft near Hoorn

[Apply Now](#)

Company: Microsoft

Location: Beverwijk

Category: computer-and-mathematical

Overview

As a Critical Environment Technician you will maintain the critical infrastructure that keeps our Data Centers up and running. This could be anything from HVAC, the electrical supply and distribution, and water supply.

Microsoft's Cloud Operations & Innovation (CO+I) is the engine that powers our cloud services. As a CO+I CET, you will perform a key role in delivering the core infrastructure and foundational technologies for Microsoft's online services including Bing, Office 365, Xbox, OneDrive, and the Microsoft Azure platform. As a group, CO+I is focused on the personal and professional development of all employees and offers trainings and opportunities including Career Rotation Programs, Diversity & Inclusion trainings and events, and professional certifications.

Our infrastructure is comprised of a large global portfolio of more than 100 datacenters and 1 million servers. Our foundation is built upon and managed by a team of subject matter experts working to support services for more than 1 billion customers and 20 million businesses in over 90 countries worldwide.

Microsoft's mission is to empower every person and every organization on the planet to achieve more. As employees we come together with a growth mindset, innovate to empower others, and collaborate to realize our shared goals. Each day we build on our values of respect, integrity, and accountability to create a culture of inclusion where everyone can thrive at work and beyond.

Qualifications

Completed High/Secondary School, an apprenticeship/vocational qualification or equivalent

Experience in mechanical, manufacturing, automotive, electrical, controls, data center, or related fields OR equivalent experience.

Background Check Requirements:

Ability to meet Microsoft, customer and/or government security screening requirements are required for this role. These requirements include, but are not limited to the following specialized security screenings:

Microsoft Cloud Background Check: This position will be required to pass the Microsoft Cloud background check upon hire/transfer and every two years thereafter.

Responsibilities

Under varying levels of supervision, you will make rounds and work on assigned tasks while building your knowledge of operating equipment and systems within a set discipline. You'll also inspect critical environment-related facility equipment, building, and grounds.

You will utilize the internal computerized maintenance management system (CMMS) to track all equipment and complete maintenance requests. With minimal supervision, you'll also respond to abnormal conditions within the datacenter.

You will perform various types of maintenance for specific disciplines and equipment you've been trained in, and perform lower-level maintenance with minimal supervision. Using a hands-on understanding of how equipment works within disciplines you've been trained, you'll also troubleshoot equipment and systems.

You will take part in getting any third-party work underway while ensuring it is performed to scope and completed in a safe manner. You'll also ensure all safety and security requirements are followed.

You will submit reports and develop methods of operating procedure (MOPs) and standard operating procedures (SOPs). You'll also coordinate activities with contractors, perform equipment inspections, and participate in testing.
