Head of Quality Assurance

Apply Now

Company: TEC Partners

Location: Netherlands

Category: farming-fishing-and-forestry

TEC Partners is please to have partnered with a forward-thinking medical device company at the forefront of bioelectronic medicine. Their mission is simple, they're set to revolutionise healthcare by developing cutting-edge therapies for individuals battling chronic diseases. With their breakthrough, they have been granted the Breakthrough Device Designation by the United States FDA, enabling accelerated market access for devices addressing life-threatening or irreversibly debilitating conditions.

Head of Quality Assurance:

As Head of Quality Assurance, you hold a critical position in guaranteeing that products adhere to rigorous quality standards and regulatory mandates. Your responsibilities include refining and enhancing our Quality System to meet regulatory guidelines and collaborating closely with R&D and Operations teams to ensure compliance. You lead the development of training programs to uphold awareness and adherence to our quality procedures. Additionally, as a key member of the leadership team, you contribute to shaping the company's strategic direction and translating business aspirations into actionable quality objectives.

Head of Quality Assurance Responsibilities:

Implement and promotes a quality culture throughout the organisation

Establishes and mentor a team of quality professionals to create a culture of learning, ensuring the efficiency and effectiveness of Salvia's Quality System processes

Integrates Quality Engineering, Quality Assurance, and Quality Control into all aspects of product development, supply chain management, and ongoing operations

Shape the vision of Quality System development in alignment with the company's strategic objectives and growth trajectory

Drives continuous improvement initiatives to elevate product quality, refine manufacturing processes, and enhance overall operational efficiency

Ensures adherence to regulatory requirements and stay abreast of evolving standards and regulations to maintain compliance across products and operations

Head of Quality Assurance Requirements:

Proficient in regulatory requirements for medical devices and quality systems including knowledge of medical device design, manufacturing, and testing

Demonstrates meticulous attention to detail in quality-related processes and documentation

Possesses excellent communication skills and the ability to inspire and lead individuals at all organisational levels.

Exhibits strong analytical and problem-solving capabilities to tackle quality issues and compliance hurdles

Advocates for a risk-based approach, balancing rigor with resource limitations as needed

Embrace the opportunity to lead, innovate, and make a tangible difference in the lives of millions worldwide. Apply now and become a catalyst for change in the future of healthcare. If you profile aligns, please apply with an up to date CV.
