

## Hydraulic Engineer

[Apply Now](#)

Company: DEME

Location: Netherlands

Category: computer-and-mathematical

As a Hydraulic Engineer you will focus on a wide variety of challenges. Those challenges include among other hydraulic questions, the design of scour protection for offshore wind farms and the design of rock berms for the protection of power cables and pipelines. You will be responsible for sound and expert output to support our project and tender teams or work on one of our many R&D projects.

The engineering department in Breda consists of approximately 30 employees. You will work in an international team of 8 Hydraulic and Geotechnical engineers responsible for the design of seabed protection around subsea assets, cable protection strategy and the cable route design for offshore windfarms. Together with the team, you will work on making the energy transition a reality.

Provide hydraulic engineering support to our **rock placement and R&D projects** ;

Preparation of **rock structure designs** and liaise with our design subcontractors;

Review design reports and assess associated cost benefits;

**Develop in-house methodologies, tools and guidelines** ;

Take care of standards, guidelines and norms administration

Serve as an expert and resource for others;

**Collaborate and manage interfaces with engineers from different disciplines** as well as

tender-, project- and operational teams.

Bachelor or Master's degree in hydraulic or offshore engineering;

**0-2 years experience with the design of offshore rock structures;**

Strong analytical skills with a critical view towards the tasks to be carried out;

Result driven, communicative and proactive;

Fluent in verbal and written English.

An extensive mobility program for a healthy work-life balance;

A permanent training track which allows you to develop yourself personally and professionally;

A stimulating, innovative workplace with numerous growth opportunities;

A people-oriented environment with an interactive health program and a focus on employee wellbeing.
