

Intern Software Engineer

[Apply Now](#)

Company: Thermo Fisher Scientific

Location: Eindhoven

Category: computer-and-mathematical

Global Digital Group

As part of the R&D organization, The Global Digital group is committed to bring value-adding and game changing software solutions to our customers that help them with their success.

Global Digital covers all software created in the MSD-EM related sites, globally over the world. Main R&D sites can be found in Eindhoven (the Netherlands), Bordeaux (France), Hillsboro (US), Brno (Czech). The Global Digital group is responsible for the complete software stack, from fpga to embedded and application software.

Discover Impactful Work:

Transmission electronic microscopes are the most complex laboratory instruments that are being developed and used today. Software is crucial into exploiting all the potential of these microscopes, pushing the limits of current physical technologies. These microscopes are used by scientists and engineers in life science, material sciences and semiconductor industry, indirectly affecting our life in many aspects. By contributing into this software development, you might help the development of better vaccines, new lighter and stronger materials, or more efficient semiconductors.

As a member of a scrum team, you enjoy a flat hierarchy where you can improve existing software, develop new features or explore new technologies and show how these can benefit our software development. You get the time to demo and present your own ideas on a regular basis.

Keys to Success:

Team player with good natural interpersonal communications skills are required due to the

high degree of interaction and collaboration.

Value orientation, getting to the essence, setting and acting according to priorities.

Result orientation, showing initiative and self-organizing, good time and priority management skills.

Education

High school diploma or equivalent required.

We have both MSC and BSc (graduation) assignments in Computer Science, Mathematics or Physics.

Knowledge, Skills, Abilities

Basic programming skills in either C++, C# or Python

Knowledge and interest in software engineering practices (Agile, Scrum)

Proven interest and knowledge of modern frameworks, technologies relevant for the assignment

Physical Requirements / Work Environment

Location will be Eindhoven

Benefits

We offer internship remuneration based on level and type of the assignment.

Our Mission is to enable our customers to make the world healthier, cleaner and safer.

Watch as our colleagues explain . As one team of 100,000+ colleagues, we share a common set of values - Integrity, Intensity, Innovation and Involvement - working together to accelerate research, solve complex scientific challenges, drive technological innovation and support patients in need. #StartYourStory at Thermo Fisher Scientific, where diverse experiences, backgrounds and perspectives are valued.
