

Manufacturing Engineer NPI

[Apply Now](#)

Company: Trinamics

Location: Netherlands

Category: computer-and-mathematical

Introductie

Are you ready to engineer the future of semiconductor technology? Do you thrive on the challenge of integrating electrical, mechanical, and CNC expertise into cutting-edge manufacturing processes? If so, don't wait and apply directly!

Functieomschrijving

As a Manufacturing Engineer for New Product Introduction, you play a crucial role in integrating expertise in electrical, mechanical, or CNC into our advanced production processes.

You closely collaborate with multidisciplinary teams to assess engineering changes and ensure a smooth transition of products.

You lead Early Supplier Involvement activities, providing technical input and participating in development teams.

You support the production of prototypes and pilots, taking technical responsibility and ensuring qualification for large-scale production.

You engage in technical discussions with customers and suppliers to solve problems and obtain necessary approvals.

You develop and produce test tools, including CNC machining tools, electrical schematics, and PLC cabinets.

Wat verwachten we van jou?

Technical Bachelor or Master in Electrical Engineering, Mechanical Engineering, Automotive or Physics

0-10 years of relevant experience in industrial manufacturing and engineering projects.

Strong communication skills in English..

Familiarity with process control in production environments and a proactive attitude towards challenges.

Wat kun jij van ons verwachten?

Competitive salary ranging from € 3,500,00 to € 6,500,00 per month.

8.33% holiday allowance.

38 holidays (25 holidays + 13 ATV days)

Reimbursement of travel expenses.

Discounts on healthcare insurance and other benefits.
