

Math Analyst

[Apply Now](#)

Company: humancapital

Location: Haarlem

Category: computer-and-mathematical

Bedrijfsomschrijving

For our client in Haarlem, we are looking for math analysts. The company had impressive growth in the past 30 years resulting in employing over 1000 employees worldwide over 10 locations. In the Netherlands, they have 162 employees with nearly 50 different nationalities.

You obtain a healthy diet or you are thinking of starting one? Every week fresh fruit is delivered to the office and in your lunch breaks, you can challenge your colleagues in a game of foosball or table tennis.

Whether you commute by car or public transportation, the office in Haarlem is easy to reach as it is situated next to the highway and the train station.

Functieomschrijving

As a math analyst, you hold an important position in the testing of games for the gambling industry. You conduct math analysis to accurately calculate the return, odds, volatility or any other mathematical problem for simple to moderately difficult games. Together with test engineers, you discuss your analysis and findings and indicate what elements need to be verified. Where applicable, you resolve math-related issues with mathematicians from other offices as well manufacturers. In the end, your work contributes to games being approved for use in landbased and online markets all around the world.

Functie-eisen

Degree in Mathematics, Computer Sciences or another relevant study

Good knowledge of C/ C++. Java is an advantage

You master the English language

Valid working permit

You like to achieve goals while having fun

Arbeidsvoorwaarden

Monthly starting salary of 3000

Pension plan

Travel allowance fully reimbursed

Training

25 holidays

International and informal working environment

Directly employed by our client

Sollicitatieprocedure

Are you interested in delivering fair products of high quality with a diverse group of people from different nationalities?
