

## Mechanical Engineer - High-Tech Projects

[Apply Now](#)

Company: Trinamics

Location: Netherlands

Category: architecture-and-engineering

### Introductie

Do you want to apply your mechanical engineering knowledge to innovate in innovative projects as diverse as automotive, green technology, personal care, food, space and more? Then apply now!

### Functieomschrijving

As a Mechanical Engineer, you will be instrumental in the design and development of cutting-edge projects spanning a wide range of industries. From automotive advancements to green tech innovations and medical breakthroughs, your role will be pivotal in driving progress and transforming ideas into reality.

**Design and Development:** Collaboratively design, develop and optimize the mechanical components of projects.

**Prototyping:** Create and test prototypes to refine your design.

**Technical documentation:** Prepare detailed design drawings and specifications for manufacturing.

**Material Selection:** Select materials based on durability and performance.

**Quality Assurance:** Implement measures to meet design requirements.

**Project Management:** Ensure the delivery of the project on time and on budget.

**Continuous Improvement:** Stay on top of industry innovation trends..

### **Wat verwachten we van jou?**

Bachelor's or Master's degree in Mechanical Engineering or related field.

5+ years of mechanical design experience, preferably in related fields.

Proficiency in 3D CAD software, especially Siemens Teamcenter NX.

Strong problem solving skills and ability to thrive in a dynamic team.

Excellent communication skills with technical and non-technical audiences.

Knowledge of materials, manufacturing processes and quality control.

### **Wat kun jij van ons verwachten?**

€ 3.000.00 - € 6.000.00 per month.

27 + 13 holiday days.

8.33% holiday allowance.

Health care discounts

Referral bonuses

Challenging high-tech environment and future prospects
