

Research Engineer Intern (AI/ML/NLP/IR)

[Apply Now](#)

Company: Wizenoze

Location: Netherlands

Category: computer-and-mathematical

The job

As an intern with a background in Natural Language Processing, Information Retrieval, Machine Learning or Artificial Intelligence, you can work on numerous projects to bring online educational resources to educators and students.

Possible projects

Here are some topics you could be working on:

Feature engineering for video search

Resource type classification

Learning objective prediction

Quiz generation

AI tutor

Our collection of over 70 million educational and informational resources with metadata provides a rich dataset to train and test your work on. This includes:

implicit and explicit relevance judgements

sources with metadata

curriculum aligned resources

access to various types of end-users

Your skills

BSc in a relevant area (AI/ML/NLP/IR)

Strong analytical skills

Python/Java/Elasticsearch experience (depending on project)

Curious, self-motivated and proactive

Good communication skills

Passion for science, technology and education

Our offer

Work in an international, diverse, cross disciplinary scale-up

Work on challenging ML/NLP/IR projects

Closely collaborate with research engineers and with human curators

Contribute to the learning experience of learners worldwide

Office in downtown Amsterdam with well-supported remote work
