

Software Engineer

[Apply Now](#)

Company: Jameson Legal

Location: Netherlands

Category: computer-and-mathematical

An exciting opportunity has become available in the Netherlands to join a leading provider of legal software solutions. They specialise in Document Management software, along with other Legal Technology offerings.

Due to their rapid growth, they are looking for a software engineer with the following experience: Proficiency in technologies including .Net, C#, ASP.Net and Javascript.

Hands on experience in software development and delivering software solutions.

Legal industry experience from an IT perspective.

Experience with document management and enterprise content management principles.

Main responsibilities in this role will include:

Designing and maintaining product solutions that seamlessly integrate clients' Microsoft ecosystem, including SharePoint (Online), Teams, and Outlook.

Collaborating within and across teams to define and implement new features and functionality.

Writing clean, well-documented, and maintainable code that follows established coding standards and best practices.

Monitoring and troubleshooting production issues, and working to resolve them in a timely manner.

Participating in code reviews to ensure code quality and consistency.

To be considered for this role, it is essential that you have solid experience with software development processes, and a strong technical background in IT. Professional proficiency in both Dutch and English is desirable. This is an exciting role that offers a competitive salary, and plenty of opportunity to progress.
